DETAILED ACTION

Claims 1-18 are pending in the application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a process of making 2-butyl-3-[2'-(triphenylmethylnon-1-ene-4-one)-5-yl]-biphenyl-4-ylmethyl]-1,3-diazaspiro[4.4]non-1-ene-4-one, classified in class 548, subclass 300.7+.
- II. Claims 11-18, drawn to process of making irbesartan, classified in class 548, subclass 300.7+.

Inventions of Group I and Group II are directed to processes of making which are patentably distinct since each process utilizes patentably distinct starting

materials, require different reaction conditions and produce patentably distinct products.

Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper. Therefore, it would impose an undue burden on the Examiner and the Patent Office's resources to examine the instant application if unrestricted.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if

Art Unit: 1626

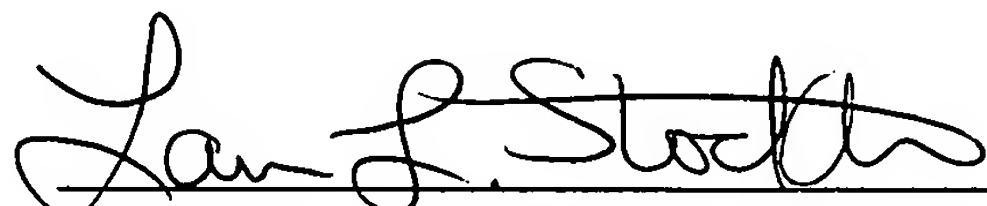

one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
